1. Firmware Update: Step-by-Step Instructions

Dear users!

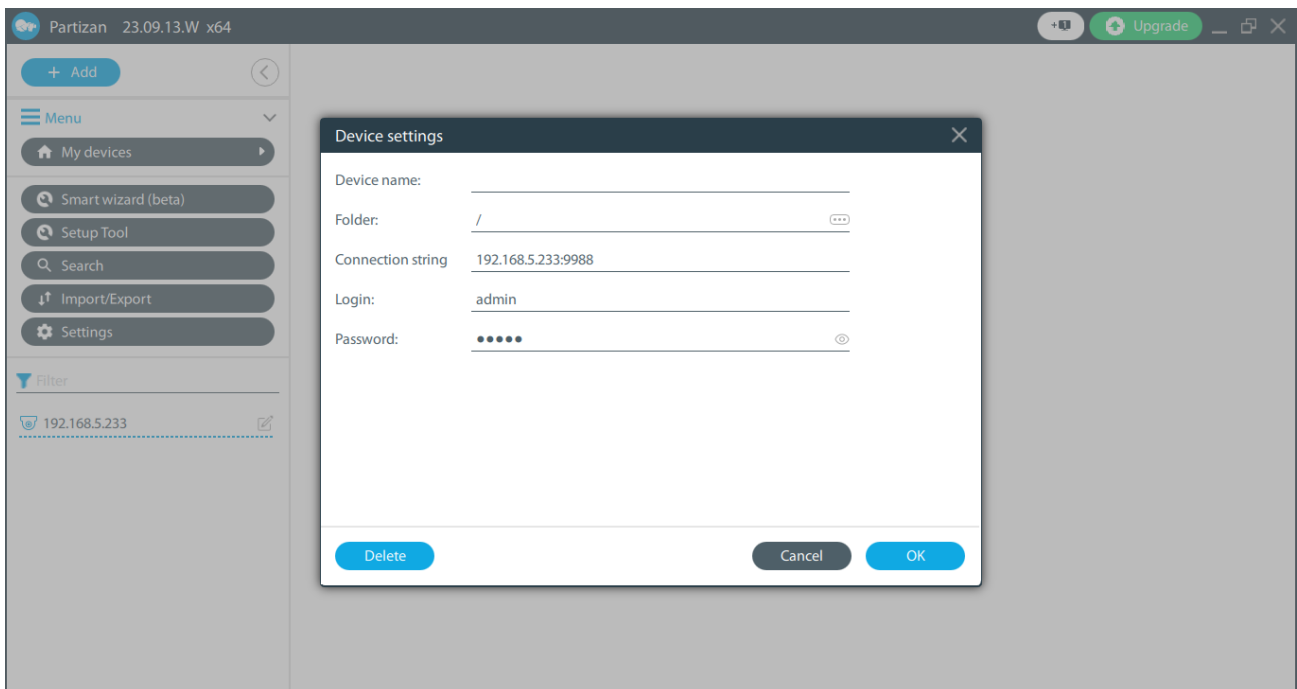

Partizan equipment requires periodic firmware updates. This is necessary to ensure better stability and efficiency of the devices.

To update the firmware, please follow these steps:

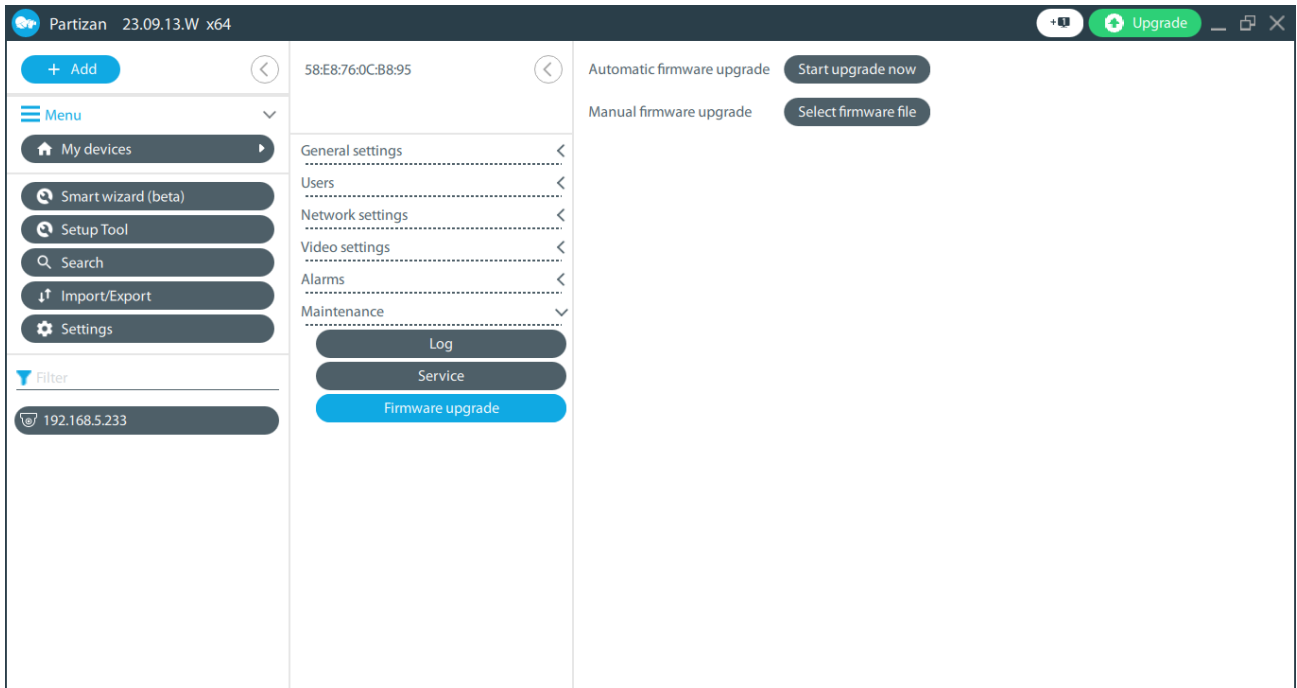

- 1) Go to the website <https://apps.partizan.global>.
Download and install PARTIZAN software for Windows, Mac, or Linux.

|  PARTIZAN CCTV SOFTWARE Easy-to-use software for controlling CCTV systems containing one or several DVRs and IP cameras. | | | | | | | |
|---|---|-----------------------------------|-------------------------------|---------------------------------|---|-----|---|
| Software | PARTIZAN (NEW !!!) | | | | PARTIZAN MOBILE APP | | DEVICE MANAGER DESKTOP |
| Description | Support all Partizan CCTV equipment (Viewer). The x64 version is recommended for systems with 16 or more cameras | | | | Applications for mobile phones running under Android and iOS. | | Support Cloud series of Partizan CCTV equipment (Configurator). |
| Operating system | Windows 64-bit x64 v. 23.09.01 (Recommended) | Windows 32-bit x86 v. 23.06.06 | Mac 64-bit x64 v. 22.01.14 | Linux 64-bit x64 v. 22.01.14 | Android | iOS | Windows v. 21.10.21 |

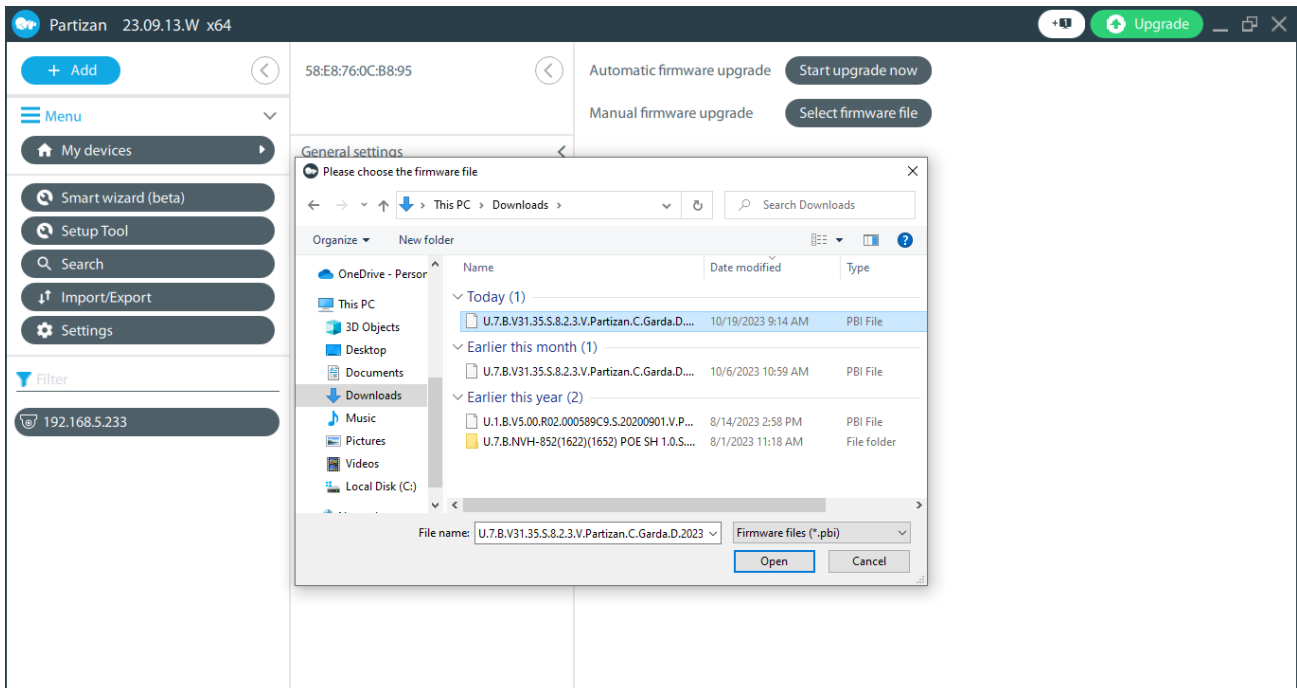

- 2) Run PARTIZAN software and add your device using the IP address in the local network or using the MAC address remotely.

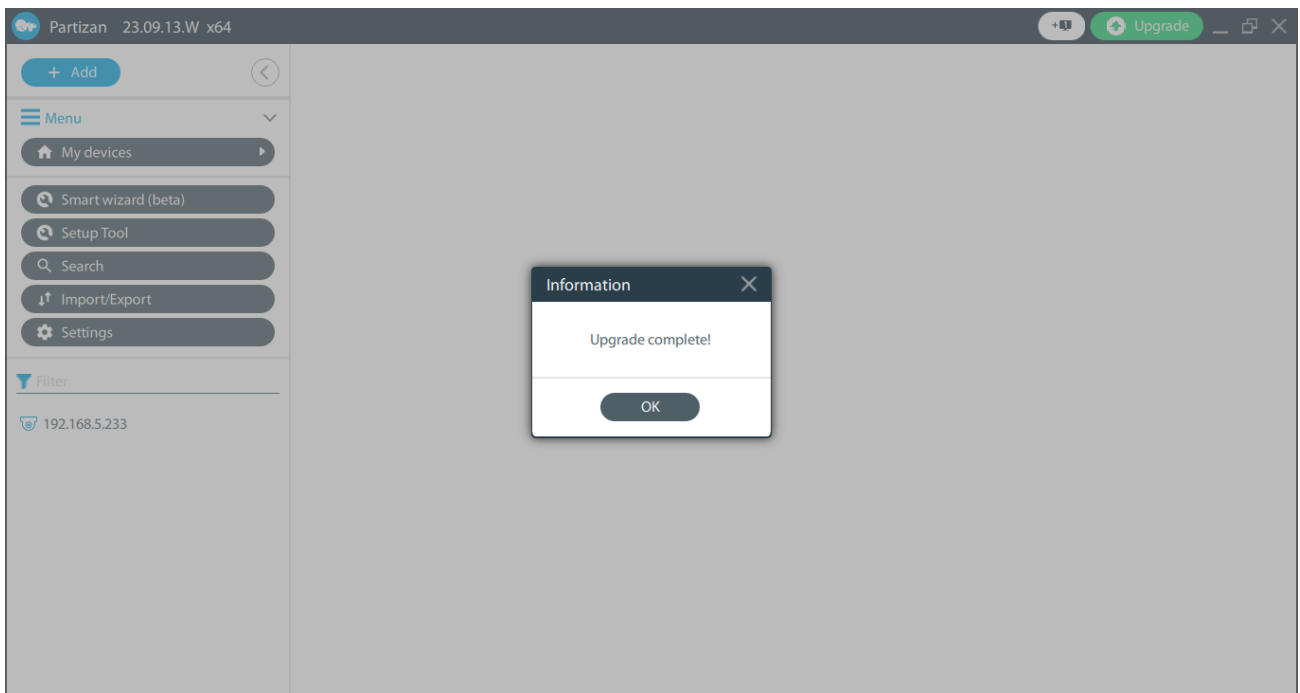

3) Open in Menu Maintenance > Firmware update > Manual Update.

4) Choose file with .pbi format for your device.

5) Wait for an informative message about the successful update.
