1. How to start

This device supports **Partizan Cloud Storage** service and **Partizan** mobile application for iOS and Android.

Partizan Cloud Storage benefits:

Your data cannot be stolen or damaged.

No one can access your devices, live and archived video without your permission.

Access to your account and devices from anywhere in the world. Even mobile Internet is enough.

Partizan app won "**Best Mobile Video Surveillance App 2019**" international award.

To take full advantage of the device, **install Partizan mobile application** for iOS or Android:

Partizan mobile application for iOS:

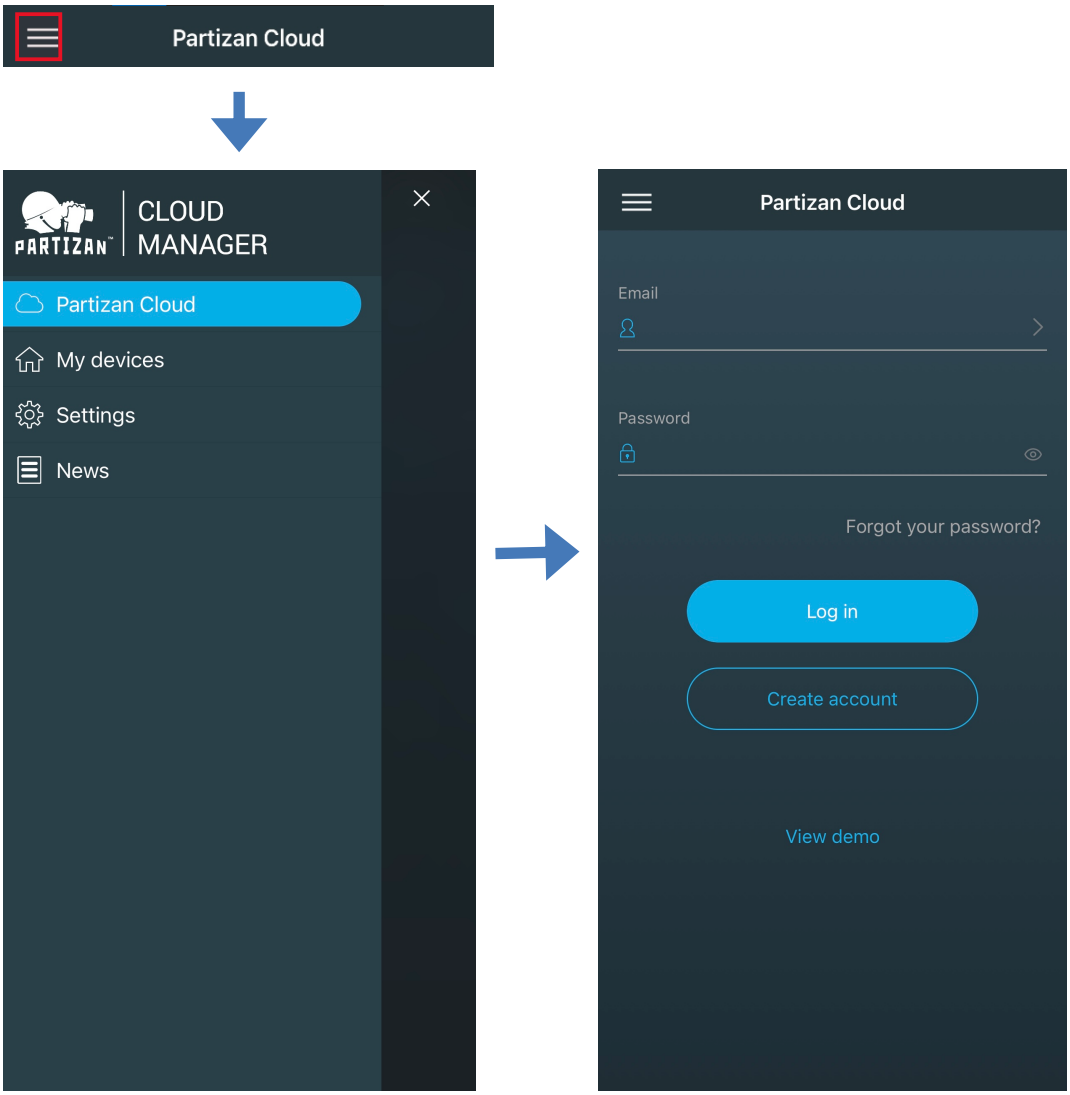
https://apps.apple.com/app/partizan/id1473001227

Partizan mobile application for Android:

https://play.google.com/store/apps/details?id=com.partizan.pro

To work with this device you need to **sign in to your cloud account**.

Open the app, use an **existing account** or **create a new one**:



After signing into the cloud account you can go directly to device setting.

3. Adding device to Partizan mobile application

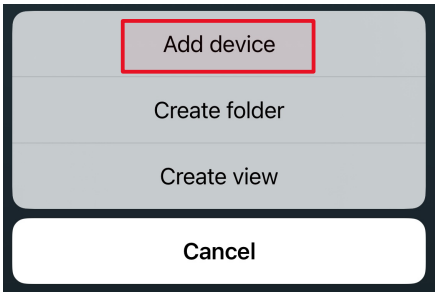
3.1 Download and install Partizan mobile application

Partizan mobile application for iOS:
https://apps.apple.com/app/partizan/id1473001227

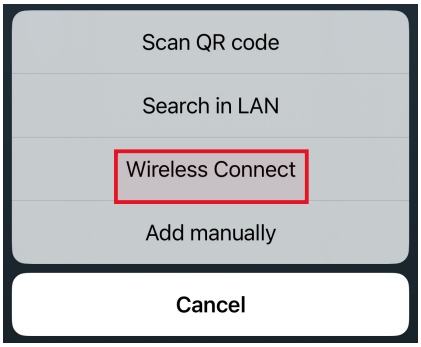
Partizan mobile application for Android:
https://play.google.com/store/apps/details?id=com.partizan.pro

3.2 Launch of Partizan mobile application

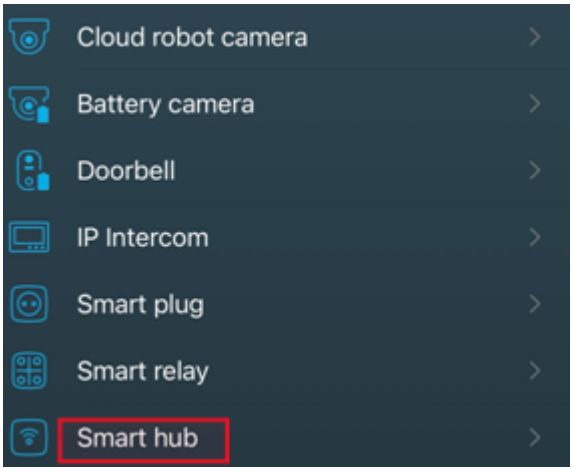
Press **"+" button** (top right corner of the screen for iOS or bottom right corner of the screen for Android). Press «**Add Device»**.



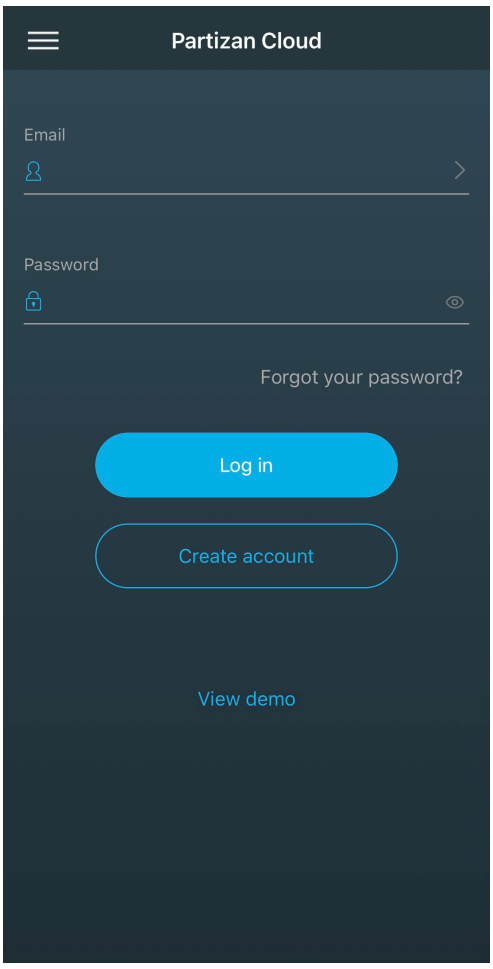
Select device connection type **«Wireless Connect»**.



Select **«Smart Hub»** device

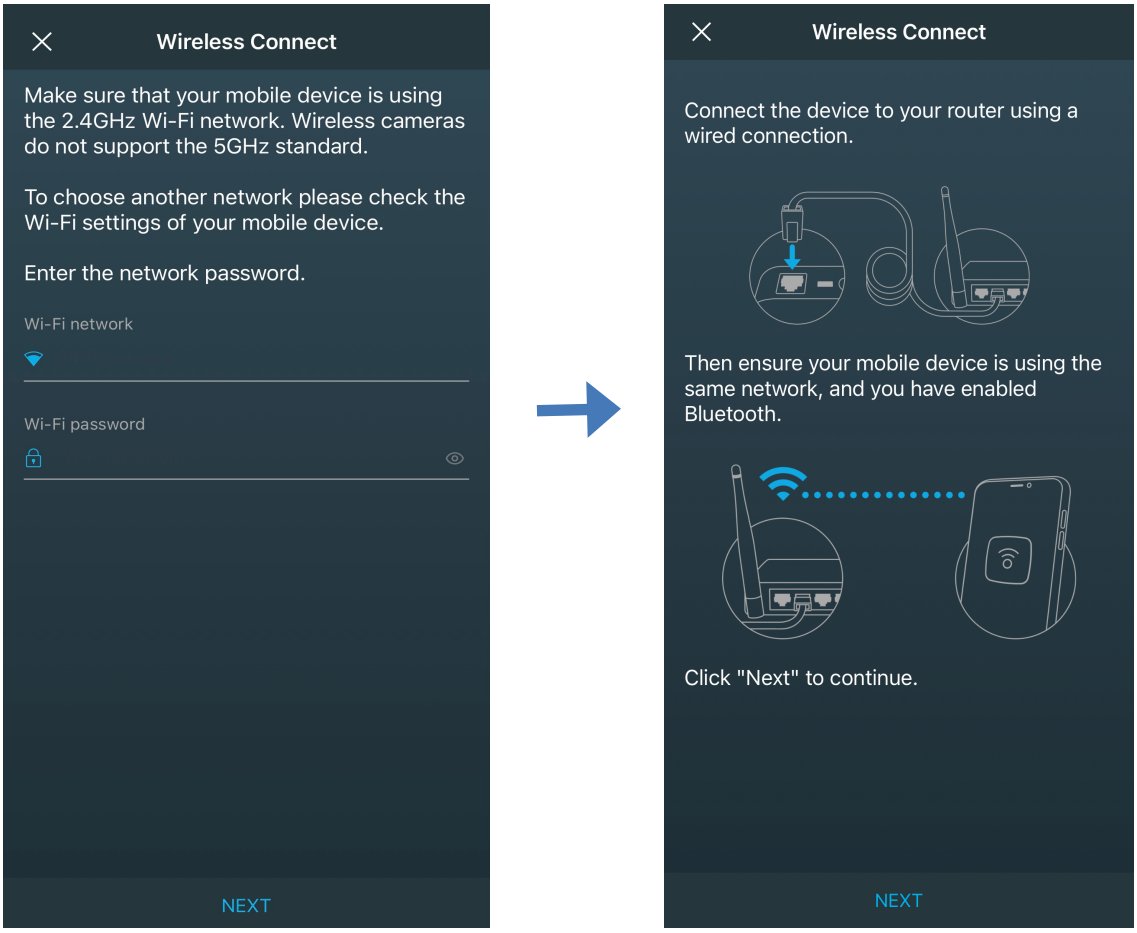


To work with this type of device, you must **log in to your cloud account**. Use an **existing account** or **create a new one**.



Enter the registration data of your Wi-Fi network (name and password) to which the mobile phone is connected. **The network standard must be 2.4GHz!**

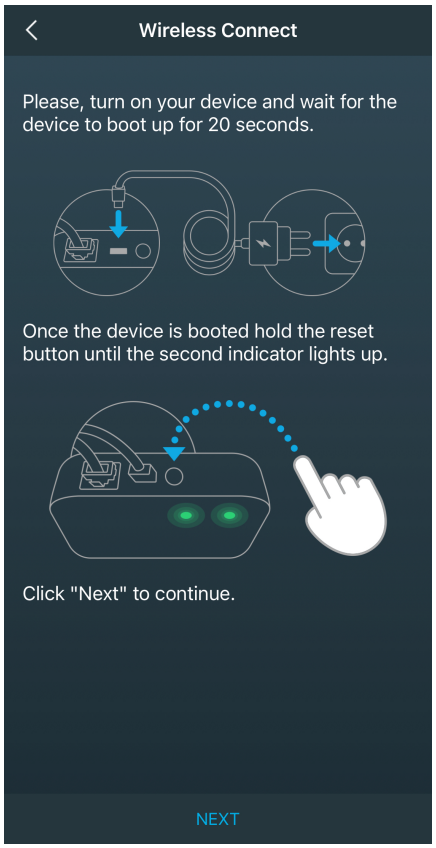
Press **«Next».**
Switch the device on.



Connect the device to the router using a wired connection. Then make sure your mobile device is using the same network, and you have turned on Bluetooth.

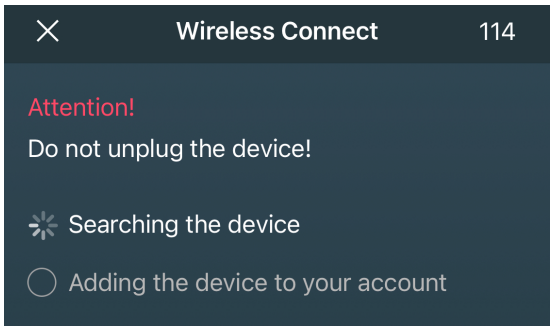
Wait 20 seconds for the device to boot up.

After the device boots up, hold down the reset button until the second LED lights up.



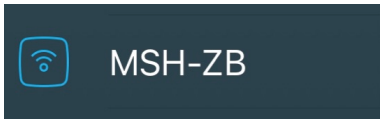
Press **«Next».**

The Smart Hub will receive the registration data of your Wi-Fi network and will be added to the list of devices in your cloud account.



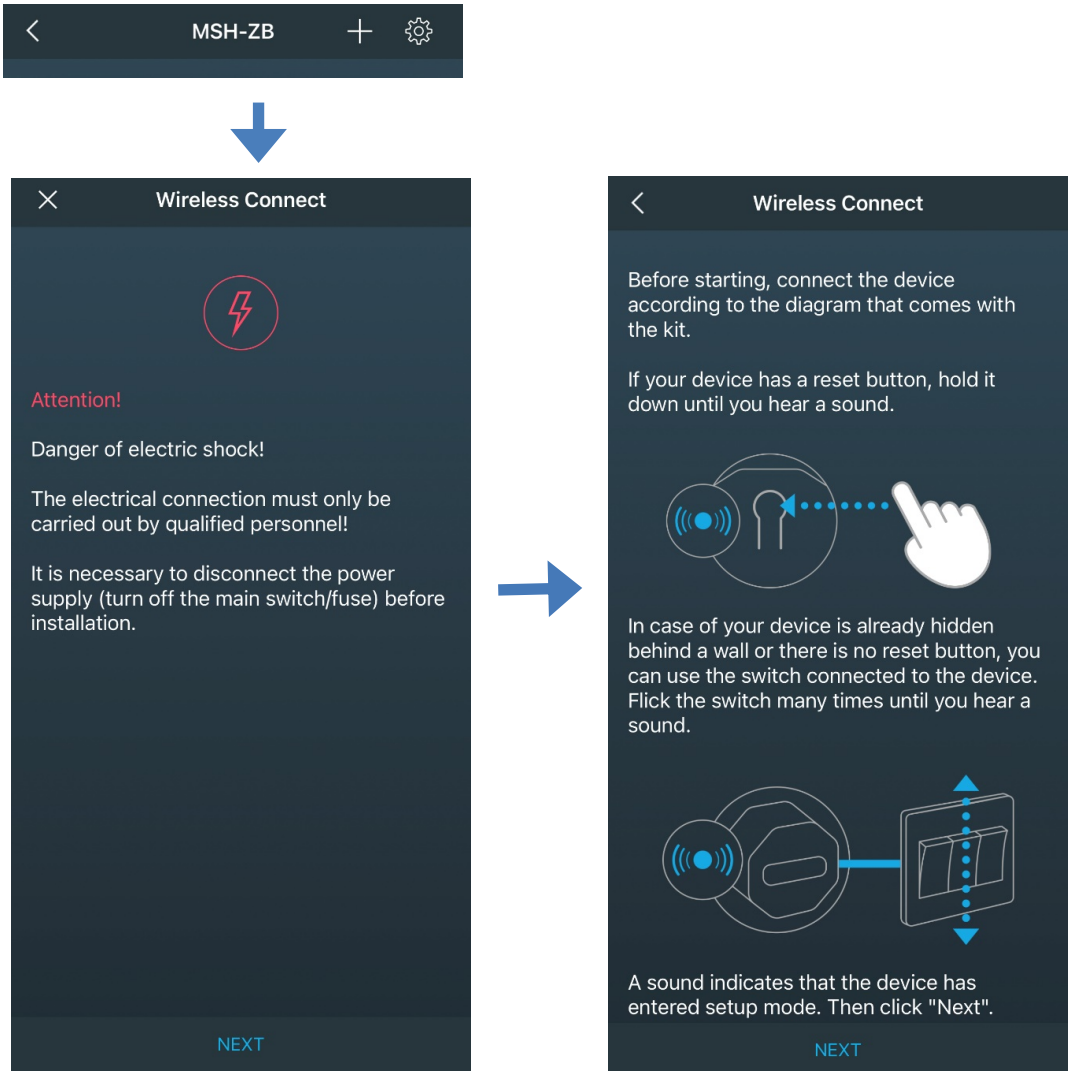
4. Interface in Partizan mobile application

Click on Smart Hub in the list of added devices.



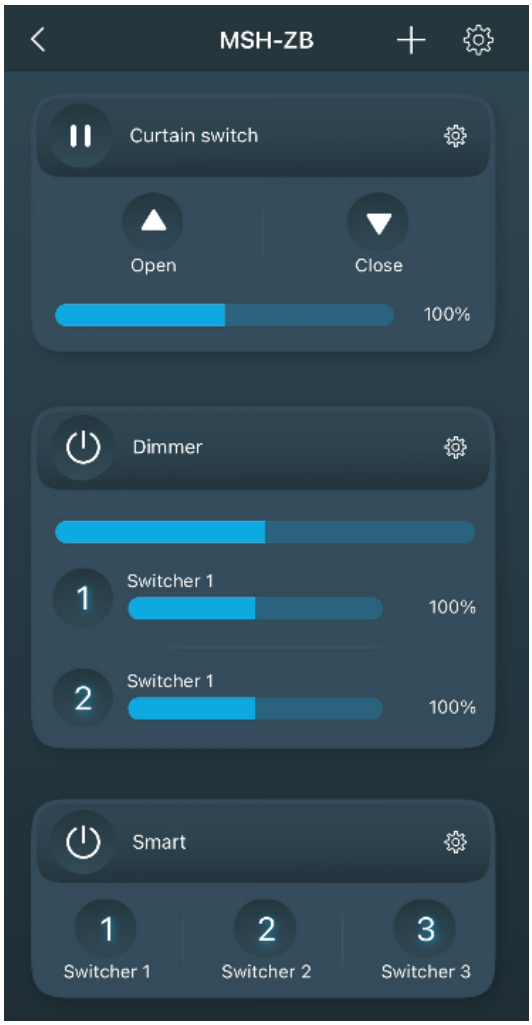
4.1 Adding sub-devices to the Smart Hub

Myers sub-devices for a smart home that work on the ZigBee protocol can be connected to the Smart Hub. To do this, click on the + icon in the upper right corner and follow the instructions that appear on the screen.



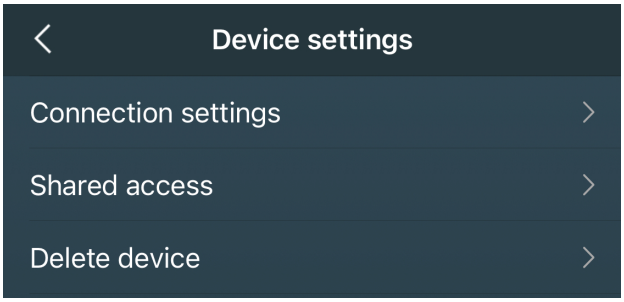
4.2 Control Screen

After adding sub-devices (roller blinds, dimmers, etc.), they will be displayed on the Smart Hub Control Screen. You can directly manage them from this screen.



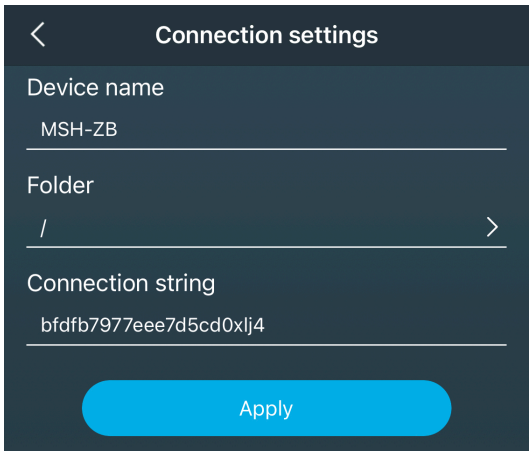
4.3 Settings Menu

To go to the settings menu, click the image of the gear icon in the upper right corner of the Control Screen.



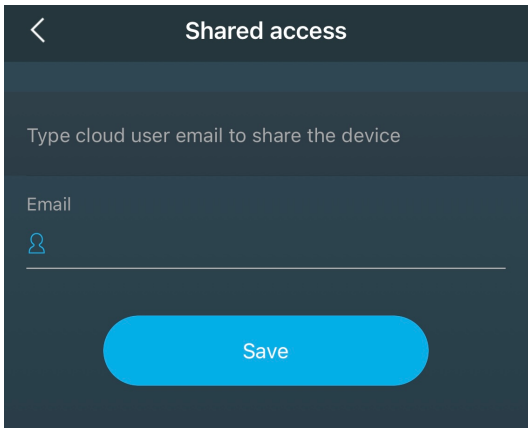
4.4 Connection settings

In this menu, you can give a name to the device or view the connection ID.



4.5 Shared Access

To share access to the device with another user, you must enter his e-mail registered in Partizan Cloud.



4.6 Delete device

To remove device, you must press "**Delete device**" button.
